FINANCIAL STATEMENTS
Years Ended April 30, 2010 and 2009

Independent Auditor's Report

The Board of Directors and Stockholders
Initio, Inc. and Subsidiary
Rochelle Park, NJ

We have audited the accompanying consolidated balance sheets of Initio, Inc. and Subsidiary (the "Company") as of April 30, 2010 and 2009, and the related consolidated statements of operations and comprehensive income, stockholders' equity, and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Initio, Inc. and Subsidiary at April 30, 2010 and 2009, and the results of its operations and its cash flows for the years the ended in conformity with accounting principles generally accepted in the United States of America.

1. Summary of Significant Accounting Policies

Nature of Business

In past years Initio, Inc., through its wholly owned subsidiary, Initio Consulting Corp. (formerly called Deerskin Trading Post, Inc. "Deerskin"), primarily marketed leather goods by way of the Deerskin catalog and gifts and house wares through its' Joan Cook catalog.

In May 1999, the Company sold materially all of the assets of its Deerskin operation. Since May 1999, the Company began the process of identifying new business opportunities including, but not limited to, making an appropriate acquisition.

During the fiscal year ended April 30, 2002 the Company began selling management and consulting services.

Basis of Presentation

The consolidated financial statements include the accounts of the Initio Inc. and its wholly owned subsidiary Initio Consulting Corp. All material inter-company transactions and balances have been eliminated.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Marketable Securities

The Company classifies its marketable securities as either available for sale or held to maturity in accordance with Statement of Financial Accounting Standards No. 115 (SFAS 115). Available for sale securities are presented at their estimated fair market value, which has been determined based upon security market quotes. Realized gains and losses, calculated based upon specific identification of shares sold, are included in the determination of Net Income (Loss). Unrealized gains and losses are included as a component of Other Comprehensive Income (Loss).

Fair Value of Financial Instruments

The carrying amounts reported in the consolidated balance sheets for cash, accounts payable and accrued expenses approximate their fair value due to their short-term maturities. The amounts presented for the purchase money mortgage receivable, and mortgage payable also approximate fair value.

1. Summary of Significant Accounting Policies - (continued)

Fixed Assets

Fixed assets are stated at cost net of accumulated depreciation and amortization. Depreciation and amortization is computed by the straight-line method over the estimated useful life of the assets.

Long-Lived Assets

The Company's policy is to record long-lived assets at cost, amortizing these costs over the expected useful lives of the related assets. Long-lived assets are reviewed on a quarterly and annual basis for impairment whenever events or changes in circumstances indicate that the carrying amounts of the assets may not be reasonable. Assets are evaluated for continuing value and proper useful lives by comparison to expected future cash flows. Impairments if any, are recognized in the consolidated statements of operations and comprehensive income (loss) in the period identified.

Stock Based Compensation

The Company accounts for stock based compensation of employees, using the value approach, described in SFAS No. 123(R).

Earnings Per Common Share

Basic Earnings per Common Share, as well as Diluted Earnings Per Common Share have been computed based upon the weighted average number of actually outstanding shares of the Company's common stock.

Income Taxes

Income taxes have been provided using the asset and liability method. Deferred tax assets and liabilities are determined based on differences between the financial reporting and tax basis of assets and liabilities and are measured by applying estimated tax rates and laws to taxable years in which such differences are expected to reverse. A valuation allowance has been provided to reduce the net carrying value to an amount that is more likely than not to be realized.

The Company utilized approximately \$408,000 of the cash proceeds to satisfy the previous existing first mortgage. The purchase money mortgage has a term of 48 months and bears interest at the rate of 7.5% per annum, payable monthly. The entire balance of \$825,000 of the purchase money mortgage was received in August, 2008.

As of April 30, 2005, only \$400,000 in principle of the convertible debentures receivable had been collected. The remaining balance of \$3,000,000 is in default. Under section 382 of the Internal Revenue Code, these losses may be limited due to ownership changes.
